User experience design for iPhone interfaces.

# bamboudesign

User experience design for iPhone interfaces.

## WHAT YOU GET

Get an outstanding user interface customized with the iPhone's revolutionary technology.

## WHO WE ARE

Bamboudesign is a team of user experience designers, specialized in iPhone interface design. We create superior iPhone-optimized application interfaces that are reliable, useful, and beautiful. Utilizing the iPhone's ground-breaking technology and human-interface principles, we design high-end interfaces that meet iPhone user needs and expectations quickly and effectively.

Our designs let you develop sooner, better, and launch with success. We deliver user interface templates ready for development, along with thorough design and system behavior specifications for developers, and a clear understanding of the user needs. We streamline the development process and help you save time and money.

Bamboudesign was founded in 2004, offering user experience design for desktop and mobile applications, for businesses worldwide. The company is based in San Francisco and has an office in Paris, France.
